### **The funny Quartets**

CROSS STITCH PATTERN READY TO DOWNLOAD, DESIGNED BY GERA! by Kyoko Maruoka

Beautifully designed in cross stitch, all the characters of these famous stories and fairy tales are there, but what a mix up!

The Wolf can't find little Red riding hood,

The Witch, still holding her poison apple, is still looking for Snow white,

Liitle Alice is lost in Wonderland and hasn't seen Frog Footman yet,

Puss in boots wants to meet the King....

Indeed, designer Kyoko Maruoka decided to do some fun sorting of her own:

- she stitched all the little girls together, as a first Quartet
- the kings and princes went into the second one
- the last quartet includes the Witch, The Wolf, Cat and Frogman

Children will enjoy that you stitch for them these colorful and fun series. They can be adapted for many needlework projects as the small cross stitch patterns will fit onto bibs and small items such as pouches and pencil cases. You can make personalized presents for children, letting them pick their favorite series beforehand.
